

The NCH logo consists of the letters "NCH" in a bold, white, sans-serif font, centered within a solid blue square.The background of the entire image is a complex collage of blue-tinted photographs. On the left, a large profile of a man wearing a blue hard hat with the NCH logo is superimposed over an industrial refinery or chemical plant. The rest of the image is a grid of smaller photos showing various industrial scenes: pipes, storage tanks, workers in white protective suits, and workers in blue uniforms walking in a facility. The overall aesthetic is professional and industrial.

# Cleaning and conserving water

In North America alone, we save our customers over 25 billion liters of water each year, enough to supply the City of Las Vegas

Our expertise in water harvesting and reuse is saving individual customers up to 20 million liters per year

Biological technologies are reducing hazardous chemicals in our customers' waste water by 150,000 liters per year

NCH pioneered aqueous parts cleaning and now our market-leading, water based solutions represent over 80% of parts cleaning revenue

# Reducing energy

Advanced chemistry means our lubricants perform better and last longer, saving customers almost 3 million KG of grease and 15 million liters of oil per year

Our high performance additives save customers 40 million liters of fuel each year

25% of the oil we use to produce our lubricants is from recycled sources

Descaling services save our customers 3 million KWh of energy per year

# Eliminating waste

We reduce carbon output at our customers by almost 200 million KG per year

80% of our revenue from degreasing products is from biodegradable solutions

Proprietary life sciences capabilities reduce fungicides by 700G per hectare of planted crop

Superior parts cleaning chemistry reduces hazardous waste for our customers by over 12 million liters per year

Innovative probiotic expertise increases production efficiency and is a natural alternative to antibiotic growth promoters

# Sustainability within our operations

25% of our grease production is powered by solar energy

Our sales force in Taipei use e-bikes for customer visits

We conserve 300,000 liters of water through reuse at our plant in Czechia

Across Asia, NCH staff participate in PLOGGO events to collect trash whilst exercising

Onsite recycling eliminates 500,000 liters of annual solvent waste in Europe

# NCH is committed to business resilience

Family-led, people-focused business

Protecting against cyber attacks, supported by business continuity risk planning

Health, safety and environmental management

Guarding the data of our staff, customers and vendors
